

SPREADING JOY

Light Up CHRISTMAS

SINCE 2014

Residential services

We bring the magic atmosphere of Christmas to your home.

We do that by designing, creating and installing bespoke external and interior Christmas decorations, so that all you have to do is gather the family together and enjoy it!

WHO WE ARE

We are Louise and Matt, directors of Light Up Christmas. Between us, we have over 40 years of experience in events, project management and commercial operations.

Our business is solely focused on Christmas, and we are in our 10th season designing and installing Christmas displays. We employ a fantastic team of creatives, designers, fabricators and installers working from our Birmingham base in Aston. We work mainly in the Midlands and London.

We would love to work together this season to create a truly magical Christmas atmosphere in your family home. Call us on **07760 767 815** or email hello@lightupchristmas.co.uk to discuss your project.

TREE WRAPS

Tree wraps are an elegant way to make your garden or walkway stand out. Coming home to twinkling tree lights every day would be sure to fill you with festive cheer.

EXTERIOR LIGHTING

Working in harmony with a property's architecture allows us to create an elegant festive display using roofline lights, garlands and wreaths. Trees and shrubs can be smothered in sparkling lights, and driveways can be outlined with ground level LEDs.

DOORWAYS & ENTRANCES

Doorways can be highlighted with garlands, wreaths and potted trees to create a wonderful first impression. We can create light and garland canopies and walkways to make a spectacular festive entrance to your home.

GARLANDS

Our made-to-measure garlands can be pre-lit and decorated in whatever style you choose before we install in your home. Garlands can be prepared for fireplaces, stairways, internal doors or to highlight any feature in your home.

HOME INTERIORS

Our professional interior stylists can create and install the most stunning Christmas trees and garlands for your fireplaces, doorways and banisters to bring the magic of Christmas into your home.

CHRISTMAS TREES

We have a large range of artificial pre-lit Christmas trees in different sizes to fit each individual home. Traditional or contemporary, with a wide choice of colours and styles, we create a bespoke design just for you.

PROPS, SIGNAGE & BESPOKE INSTALLATIONS

We can create LED lettering for all your festive family occasions - the perfect selfie backdrop! We have individual pieces available to decorate your home. Talk to us about your vision and we can make it a reality.

WHY CHOOSE US

Put simply - we do it so that you don't have to! We want you to enjoy the build-up to Christmas without having to worry about sourcing, purchasing and installing your Christmas decorations.

After the big day, we take all decorations away and store them securely in our head office depot in Birmingham, saving you the hassle of finding somewhere in the loft to put it all!

Our team of professionals are all health and safety trained, we have access to all necessary lifting and climbing equipment and we are fully insured.

In the unlikely event that anything goes wrong with your decorations or lighting, we will be there to fix it for you.

If you can't find exactly what you are looking for off-the-shelf, our team of designers can create your festive vision in our Birmingham studio.

"Light Up Christmas are always willing to accommodate and guide my ideas and turn them into absolute magic at Christmas. As time has gone on, they have turned my experience into a real partnership where I am able to put my total trust, and will continue to do so."

RESIDENTIAL CLIENT

How it works

STEP 1 GET IN TOUCH

Give us a call or drop us an email with your requirements or any questions you have. You can also send us a digital image by email if you are looking for external lighting on your home.

e hello@lightupchristmas.co.uk

t 07760 767 815

STEP 2 CONSULTATION

We will contact you to discuss your requirements and/or to arrange a no-obligation visit to the premises to be decorated. We'll put forward suggestions and ideas and you can also let us know what your preferences are or any ideas you may have come up with. We have a vast portfolio of pictures and inspiration. If necessary, we may design computer-assisted drawings of the areas to be decorated and will provide a bespoke quote based on your requirements.

STEP 3 GET BOOKED IN

Once the quote and scope of work are agreed upon, we will arrange an installation date. We aim to be as flexible as possible in terms of dates and meeting your requirements, but this is subject to bookings and schedule availability. At this stage, we ask for a deposit and will complete all insurance documentation and risk assessments. We then begin creating and preparing your decorations in our Birmingham studio.

STEP 4 INSTALLATION

On the agreed day of installation, our team will arrive with all of your decorations and lighting and any equipment required for fitting. You do not have to be present for the installation but we will require someone there to allow access and to sign off the job on completion. We offer confidentiality agreements with every homeowner if required.

STEP 5 TAKE DOWN

We will agree on a date for the takedown of your decorations, typically within 10-12 days of Christmas. Our team will remove, safely package and take away all of your lighting and decorations to be stored securely at our Birmingham warehouse, leaving your home just as we found it before installation!

Price list

Every package we provide is designed and developed bespoke for each individual client so all prices are subject to requirements.

There is a minimum contract price of £2,750 for residential installations.

Below is a guide to pricing of some of our most popular products. Please note these costs include design, creation and fitting.

PRICE GUIDE

- ◆ *Luxury Christmas trees* (pre-lit and hand decorated) from £980 depending on overall package requirements
- ◆ *Garlands* (pre-lit and hand decorated) for door frames or interiors start at approx. £30 per foot, depending on your scheme
- ◆ *1-metre diameter wreaths* (pre-lit and hand decorated) from £200 each
- ◆ *Festoon roofline lighting* for houses and garages start from £2,500 as part of a standard (two-storey home and garage) package
- ◆ *External tree wraps* are priced by string of 100 LED lights, approx. £60 per string

Frequently Asked Questions

What areas do you cover? We cover the West Midlands for residential services and provide commercial services across the whole of the UK.

When do I need to book? Residential installations start at the beginning of November and run right through to 23rd December. We have a limit on the number of homes we can cater for, so the sooner you call the more choice of install date you will have. Typically, we are fully booked by mid-November.

What's the difference between your decorations and store-bought? Our lights are of a commercial standard, and the highest possible quality. Lots of our décor is hand crafted by ourselves and we use unique handmade products from workshops in Europe. Most of our suppliers make products exclusively for us - you won't even find them in luxury department stores!

Who uses a service like this? Our typical residential customer is someone who values their private time with friends and family, who doesn't want to deal with the hassle of decorating but wants a beautiful looking home for the festive period. As a premium service with a minimum contract price, our customers are typically owners of larger homes or estates.

Will you install lights or decorations that we already own? Unfortunately not. We cannot guarantee their quality or be responsible for them working throughout their installation.

Is there an extra charge for decoration storage? No; it's all included in the price.

Will there be any damage to my property? We do need to attach some means of fixings for lights, wreaths and garlands, however we are very conscious about making the minimum impact.

What happens if there is a fault with our lights? It is highly unlikely that this will happen, but by their very nature light bulbs can fail. Our lights are designed so that if one bulb goes out the rest will not be affected. If a large section go out due to product failure, then we will call out to rectify them.

Do I need to operate the lights myself? All lights can be fitted with daylight sensors or timers so that they will light up to suit you. We will do this at installation.

Will I need electrical work carried out prior to my installation? If your home has external power, then probably not; we can lead extensions from the home or under a garage door. If you choose to, or if it is unavoidably necessary, we can install external power. This is done by our qualified and insured electricians.

Can I add more decorations after my initial installation? Our diary is always completely full once we get to the beginning of November so it is important that you read the proposal very carefully to ensure that you will have everything you want. If it is possible to squeeze in your extra requirements we will do our best to do so.
